## Skills

### Technical Skills

- **IBM Systems:** z/OS Mainframe Practitioner, Z Application Architecture, Data Topology
  - **Cloud & Security:** Linux & Private Cloud Admin (IBM Power), Azure Fundamentals, Microsoft 365 Admin
  - **Networking & Security:** TCP/IP, Windows Server, Hyper-V, Active Directory, Network Hardening, Wireshark, Kali Linux, PowerShell
  - **Automation & Containerization:** Ansible, Docker, Node-RED (automation of network & containerized lab projects)
  - **Version Control & Collaboration:** Git, GitHub, Salesforce, Slack, Zoom, Teams, SharePoint, OneNote
  - **Programming & Development:** COBOL, IBM DB2, Java, Python, C++, CI/CD, Agile, DevOps
- 

## Certifications

- **IBM z/OS Mainframe Practitioner**
- **IBM Z Application Architecture**
- **Microsoft Azure Fundamentals**
- **CompTIA Security+ (In Progress)**
- **Certified Network Technician (CNT) – California Institute of Applied Technology**
- **Red Hat Linux System Administrator**
- **CompTIA Network+**
- **Cisco Certified Network Associate (CCNA) (In Progress – Testing in September)**
- **Node-RED Associate (In Progress) — badges: Credly • NetAcad • Course/Docs**
- **Node-RED Advanced (In Progress) — badges: Credly • NetAcad • Course/Docs**
- **Oracle Multi-Cloud Architect**

---

## **Education**

### **California Institute of Applied Technology**

**CNT-Certified Network Technician Program** (*05/2025–Current*) - 20-week intensive: network installation, troubleshooting, maintenance - Hands-on: CompTIA Network+ & Cisco CCNA focus - Practical: Build-Your-Own-Computer kits - Live online classes, industry-certified instructors - Deep dive: security, routing, switching, wireless

### **Centriq Training**

**Cloud and Security Specialist Program** (*Graduated 10/2023*) - Comprehensive IT: Windows, networking, cloud, cybersecurity - Real-world labs, troubleshooting, infrastructure management - Microsoft 365 admin, Active Directory, PowerShell, network security - Tools: Wireshark, Kali Linux, Rocky Linux, firewalls - Professional dev: documentation, communication, job readiness - Cert prep: CompTIA Security+, Microsoft Azure Fundamentals

### **Colorado Technical University**

**B.S. Computer Science** (*2013–2017*) - Database management, software engineering, data structures, data mining - Projects: Java calculator, .NET dungeon game

---

## **Professional Experience**

### **M3 Communications and Technology LLC – Perryville, MO**

**System Administrator | Network Technician** (*05/2013–Present*) - Lead technical consultant for enterprise IT solutions - Infrastructure upgrades, rollouts, troubleshooting & maintenance - Burger King NEC menu refresh (36+ locations) - Printer rollouts (Wells Fargo Advisors), Cisco AP projects (JCPenney)

---

### **Allied Medical LLC – St. Louis, MO**

**Maintenance Supervisor / Safety Coordinator** (*10/2023–Present*) - Managed operations, project scheduling, and compliance (ISO, UL, EPA, FDA, OSHA) - Oversaw safety, machine validation, vendor onboarding - Tools: Salesforce, Microsoft suite, Micromain

---

**CR Solar – Edwardsville, IL**

**Project Manager** (*11/2022–05/2023*) - Project scheduling, material procurement, permit approvals - Customer communication, plan set design (Salesforce, Google) - Crew training, process documentation

---

**Simple Solar – St. Louis, MO**

**Installation Technician** (*02/2021–05/2021*) - Installed solar panel racking, wiring, jumper piping - Managed inventory, ensured wire management

---

**TG Missouri – Perryville, MO**

**Maintenance Technician / Mold Setter** (*11/2017–05/2017*) - Preventive maintenance on injection molding machines - Managed inventory, equipment installations, facility transitions

---
